

WORKSHOP **EMPOWERING ENERGY** **MANAGEMENT**

Technology, Compliance and Best Practices

AGENDA

MONDAY, NOVEMBER 10, 2025 | 01:30 - 4:30 PM

Introductions & Energy/Emissions Challenges with Nisha Latif and Marjorie Ochsner

Share Energy & Emissions challenges to guide discussion.

Innovative Digitalization Tools in the Energy & Emissions Journey - A discussion with Bora Engin from SOCAR and demo with Madhukar Gundappa from Honeywell

Joint presentation on SOCAR's Carbamide initiative. Topics include:

- COP29 deployment strategy
 - Lighthouse digitization project
 - Safety and production impact beyond compliance
-

Energy & Emissions Priorities and their Operational Impact - A Roundtable discussion with Giammarco Gioco from ENI

Focus on operational impacts, strategic resources and compliance requirements.

Tools for Energy & Emissions Journey

Live demonstration of HFS+ platform and an overview of how the tool supports emissions tracking and energy optimization.

Breakouts & Networking

One-on-one discussions and tailored deeper dives with Honeywell experts.

Group Discussion & Wrap up

Honeywell
