## Save the Date: 2025 November 11-13 for the 33rd annual Honeywell Users Group (HUG) - EMEA

Save the Date: 2025 November 11-13 for the 33rd annual Honeywell Users Group (HUG) Europe, Middle East and Africa (EMEA) at the World Forum Convention Center, The Hague, The Netherlands

The 2025 Honeywell Users Group global theme: EMPOWERING CHANGE SECURING TOMORROW highlights our collaborative commitment to driving impactful changes in the industry.

By leveraging AI and autonomous systems, enhancing cybersecurity, and digitally connected services, we aim to empower users with cutting-edge technologies.

This focus frames our dedication to transformative AI-driven solutions and proactive cybersecurity measures, ensuring a secure and sustainable future for all.

Join us as we explore how to harness the power of change and pave the way for a sustainable future.

The 2025 HUG EMEA customer registration opens on August 15, details on deadlines and pricing will be made available on the web, in July.

We will notify you in July when we open the call for customer papers.

We look forward to your HUG participation and presentations: Empowering Change Securing Tomorrow!

For assistance related to the 2025 HUG EMEA, November 11-13, you can contact [usersgroup@honeywell.com](mailto:usersgroup@honeywell.com).

The 2025 HUG Steering Committee.

Dear Valued Customers,

We are pleased to announce that you can now order Certified Recycled Parts (CRP) online. This new feature aims to enhance your experience with us by providing a more convenient and efficient way to access the CRP parts you need.

Prior to placing an online order, we kindly ask that you continue to contact [CertifiedRecycledParts@Honeywell.com](mailto:CertifiedRecycledParts@Honeywell.com) to confirm the availability of the parts you require. This step ensures that our CRP Team can promptly handle your request and provide you with the best possible service.

When browsing our online [catalog](#), you will find the necessary contact information alongside all CRP parts.

Contacts for Training & Online Assistance:

[Bailey McClish](#), AMER LSS eCommerce Pole Lead

[Dana Miron](#), EMEA LSS eCommerce Pole Lead

[Adrian Rodriguez](#), APAC & LATAM LSS eCommerce Pole Lead

All Escalation Issues: [Jennifer Roddy](#), Global Sr. Manager eCommerce

CRP Availability: [CertifiedRecycledParts@Honeywell.com](mailto:CertifiedRecycledParts@Honeywell.com)

Thank you for your continued trust and support. We are committed to offering you high-quality products and exceptional customer service.

Sincerely,

Global eCommerce Team

## Global Honeywell Academy Training Solutions

Welcome to the June edition of “Global Honeywell Academy Training Solutions”. As always, we are excited to share the latest updates, insights, and innovations from Honeywell that we believe will add value to you.

As always, our goal is to provide you with the most current and relevant information to help you stay ahead in your field. This month's edition is packed with exciting content tailored to keep you informed and inspired.

Below, you will find the latest updates:

1. Certification Program in Process Control Techniques
2. Addition of Cybersecurity training courses to the HRDC program
3. Cybersecurity Training are now available in Japanese language
4. Experion Training are now available in Korean language
5. Training solution closer to your site

## 1. Certification Program in Process Control Techniques

We are excited to announce a joint "**Certification Program in Process Control Techniques**" by the School of Engineering, **Newcastle University**, and **Honeywell Process Solutions**. Newcastle University, a founding member of the Russell Group and a Global Top 110 university (QS World University Rankings 2024), is dedicated to excellence, creativity, and innovation.

This two-week intensive program is designed for Process engineers, Plant operators, Plant managers, Control system engineers, Students, New Hires, and Industry professionals seeking career advancement. It will develop awareness of measurement principles and instrument design features, with hands-on experience on the Honeywell C300 platform.

### Program Details

**Location:** School of Engineering, Newcastle University, Newcastle upon Tyne, United Kingdom

**Duration:** 2 weeks

### Objectives:

- ✓ Understand Distributed Control
- ✓ Build Control Strategies
- ✓ Process Control Basics
- ✓ Process Control Labs (hands-on)

## 2. Addition of Cybersecurity training courses to the HRDC program.

Honeywell Academy is the registered training vendor under the HRDC, and we have added **Cybersecurity training courses to the HRDC program**. Our customers can now enhance their cybersecurity skills through the HRDC program.

Honeywell Academy is offering the following cybersecurity courses:

- ✓ OT Cybersecurity: Fundamentals And Awareness
- ✓ OT Cybersecurity: Standards And Best Practices
- ✓ OT Cybersecurity: Honeywell Application Control/Whitelisting
- ✓ OT Cybersecurity: Governance And Compliance
- ✓ OT Cybersecurity: Incident Management
- ✓ OT Cybersecurity: Linux Systems Essentials
- ✓ OT Cybersecurity: Advanced Network Security
- ✓ OT Cybersecurity: Offensive-Defensive Principles - Red/Blue Team Concepts
- ✓ OT Cybersecurity: Honeywell SMX - User And Maintenance
- ✓ OT Cybersecurity: Offensive Security PenTest Fundamentals

### 3. Cybersecurity Training are now available in Japanese language

Our following OT Cybersecurity Training Courses,

 **OTCS 1001 - OT Cybersecurity: Fundamentals and Awareness**

 **OTCS 2001 - OT Cybersecurity: Standards and Best Practices**

are now available in Japanese language, specifically in the AT (Asynchronous Training) delivery mode. This enhancement ensures that our Japanese-speaking learners can easily access these critical training programs.

These self-paced (AT Mode) courses are now available in our Learning Management System (LMS), providing valuable opportunities for our learners to enhance their skills and knowledge in cybersecurity as per their convenient time.

Please note that these both the courses are also available in Classroom (ILT – Instructor-Led Training) mode as well as Virtual (VILT – Virtual Instructor-Led Training) mode.

### 4. Experion Training are now available in Korean language

Our Experion courses have now been translated into Korean, significantly improving accessibility for our Korean-speaking learners. This initiative underscores our commitment to providing high-quality training programs that cater to diverse audiences.

Available Experion Courses in Korean:

- ✓ EXP-01-AT (Experion PKS: Fundamentals - Controller Operation)
- ✓ EXP-05C3-AT (Experion PKS: Fundamentals - C300 Troubleshooting and Maintenance)
- ✓ EXP-2001C3-AT (Experion PKS: Fundamentals - C300 Controller Implementation)
- ✓ EXP-02-AT (Experion PKS: Fundamentals - Server Engineering and Configuration Implementation)
- ✓ EXP-03-AT (Experion PKS: Fundamentals - Graphics Design and Building Implementation)

### 5. Training solution closer to your site

Honeywell Academy (AMER) is very pleased to bring training solution closer to your site.

We offer these training courses at the following locations.

Enroll Now! Limited seats available.

## **1. Honeywell Calgary**

Available courses:

- i. EXP-48GEN3 – Experion PKS: Fundamentals - Gen3 Virtualization Implementation
- ii. EXP-2001C3 - Experion PKS: Fundamentals - C300 Controller Implementation
- iii. EXP-05C3 - Experion PKS: Fundamentals - C300 Troubleshooting and Maintenance

Schedules and Enrollment: Click on [link](#)

## **2. Holiday Inn Express Sarnia - Point Edward, ON, Canada**

Available courses:

- i. EXP-48GEN3 – Experion PKS: Fundamentals - Gen3 Virtualization Implementation
- ii. EXP-2001C3 - Experion PKS: Fundamentals - C300 Controller Implementation
- iii. EXP-05C3 - Experion PKS: Fundamentals - C300 Troubleshooting and Maintenance

Schedules and Enrollment: Click on [link](#)

## **3. Honeywell Phoenix, Arizona**

Available courses:

- i. EXP-48GEN3 – Experion PKS: Fundamentals - Gen3 Virtualization Implementation
- ii. EXP-2001C3 - Experion PKS: Fundamentals - C300 Controller Implementation
- iii. EXP-05C3 - Experion PKS: Fundamentals - C300 Troubleshooting and Maintenance

Schedules and Enrollment: Click on [link](#)

## **4. Honeywell Santa Fe – Mexico City, Mexico**

Available courses:

- i. EXP-48GEN3 – Experion PKS: Fundamentals - Gen3 Virtualization Implementation
- ii. EXP-2001C3 - Experion PKS: Fundamentals - C300 Controller Implementation

Schedules and Enrollment: Click on [link](#)

## **5. Honeywell Colombia – Bogota, Colombia**

Available courses:

- i. EXP-2001C3 - Experion PKS: Fundamentals - C300 Controller Implementation
- ii. EXP-48GEN3 – Experion PKS: Fundamentals - Gen3 Virtualization Implementation

Schedules and Enrollment: Click on [link](#)

## Honeywell Colombia – Bogota, Colombia

Available courses:

- iii. OTCS-2005 - OT Cybersecurity: Offensive-Defensive Principles - Red/Blue Team Concepts
- iv. OTCS-2004 – OT Cybersecurity: Offensive Security PenTest Fundamentals

Schedules and Enrollment: Click on [link](#)

---

**Thank you for being a part of our community, and we look forward to your feedback and engagement.**

For any additional information or any specific inquiries, do not hesitate to reach out to your account manager directly or write to the regional contacts below.

### **Regional Contacts:**

We are committed to addressing any inquiries you may have and ensuring a smooth integration of our innovative solution into your business operations.

Warm regards,

**Honeywell Academy**

## PRODUCTS HIGHLIGHTS

## Safety Manager R154.6

Safety Manager software release R154.6 has been released and is available for shipment. This release provides improvements and overall maintenance to the product.

More details about the improvements can be found in the R154.6 Software Change notice (SCN). This document can be found [here](#) (sign in required).

Current users of Safety Manager, which are running on previous software versions, are advised to upgrade to R154.6 or at least use a supported software version. The status of the various Safety Manager software releases is available in the Safety System Software Support Guidelines. This document can be found at the Honeywell Process Solutions support portal: <https://process.honeywell.com/us/en/home> (sign in required).

## Experion PKS Platform Announcements

### BTC12 and BTC14 Hardware Refresh

The Experion PKS BTC12 and BTC14 thin clients will undergo a transition to the BTC22 and BTC24 solutions, respectively. These platforms will utilize the ETCR300.6 Universal Thin Client Operating System image and will maintain the extensive connectivity options available on the current solutions. Specification sheets for the new platforms are available at <https://process.honeywell.com/>.

Model Number	Description	Replaces
TP-THNR01-100	BTC22 THIN CLIENT UTC OS12	TP-THNCL6-110
TP-THNR02-100	BTC24 THIN CLIENT UTC OS12	TP-THNCL7-110

### Universal Thin Client Operating System – ETCR300.6

ETCR300.6 is now available with the following key features:

1. FTE support is now available for the TP-THNCL9-110 (Dell OptiPlex 3000) thin client using the transceiver included in the hardware kit.
2. Provides a base release for future migrations to IGEL OS12
3. Native Window and MIM enhancements

Please refer to the user documentation for details.

### Experion PKS R520 Workstation Support

As communicated in previous announcements, the computing industry no longer manufactures physical workstations which support the operating system used with Experion PKS R520. To provide continued physical workstation access, Honeywell is releasing an Experion PKS R520 workstation platform based on the Dell T160 tower server and the Microsoft Windows Server 2019 operating system.

This solution will provide support for select installation Experion PKS R520 installation scenarios; please refer to the user documentation for related support details. Please note: LCNP4e2 and Matrox Extio 2 support are not available with this solution.

Model Number	Description	Replaces
MZ-PCWT02	WKS DELL T160 RAID1 TOWER	

# SUPPORT CYCLE

## Experion MX R720.2 Update1 | New Release Available

We are excited to announce the launch of the new Experion MX R720.2 Update1 system software release. Designed especially for paper manufacturing customers using the Honeywell Experion PKS (EPKS) process control system, this release enhances QCS integration with the EPKS platform. Newly launched release enables native data exchange between QCS applications and EPKS UOC and Virtual UOC controllers via the common Experion CDA protocol.

The native controller integration introduced in this release is a pivotal step toward our vision of a holistic, all-in-one paper-machine solution, as it provides the infrastructure to build more sophisticated control solutions for end-to-end paper process optimization. Moreover, the enhanced CDA functionality clears the way for our customers to migrate legacy platforms with C200 controller systems to the latest Experion controllers and system software version.

Cyber security and highest platform availability have always been Honeywell's priority. This release also encompasses many critical cyber-security enhancements, stability improvements, and key customer defect fixes.

We are committed to providing you with a superior technology and customer service. Now it is perfect time to start planning QCS system software upgrade and leverage the latest platform improvements and enhancements. Please contact your local Honeywell representative for additional information regarding this new release.

## QCS Product Lifecycle update: Experion MX 704.x goes phase-out by June 30th, 2025

Announcing the withdrawal of support for Experion MX/ MXProLine software release R704.x from June 30<sup>th</sup>, 2025.

This phase out notice also includes the corresponding Cross Direction (CD), and Machine Direction (MD) controls associated with the release 704.x

Experion MX is Honeywell's Quality Control System (QCS) for the Pulp and Paper application and MXProLine for plastic films, rubber, metals and other non-woven sheet manufacturing industry. The release version R704.x is designed to work with Experion PKS R501.6 and built for Microsoft Windows Server 2016 or Windows 10 Enterprise LTSB (x64).

The current Experion MX platform software version is R720 including Experion MX CD and MD control application versions R720.1, launched in June 2023, with platform software update 720.2 released in May 2024, which will be the replacement for R704.x

MXProLine platform is scheduled to be phased out completely by December 2025 (as announced in our earlier System HINTS notices of June 2024 and Feb 2025), and the migration option for customers is to move to the latest QCS SE R200 and above.

We encourage customers to move to the latest releases (as per lifecycle charts given below) to ensure continued support from Honeywell GTAC (Tech support) for system related issues and software bug fixes.

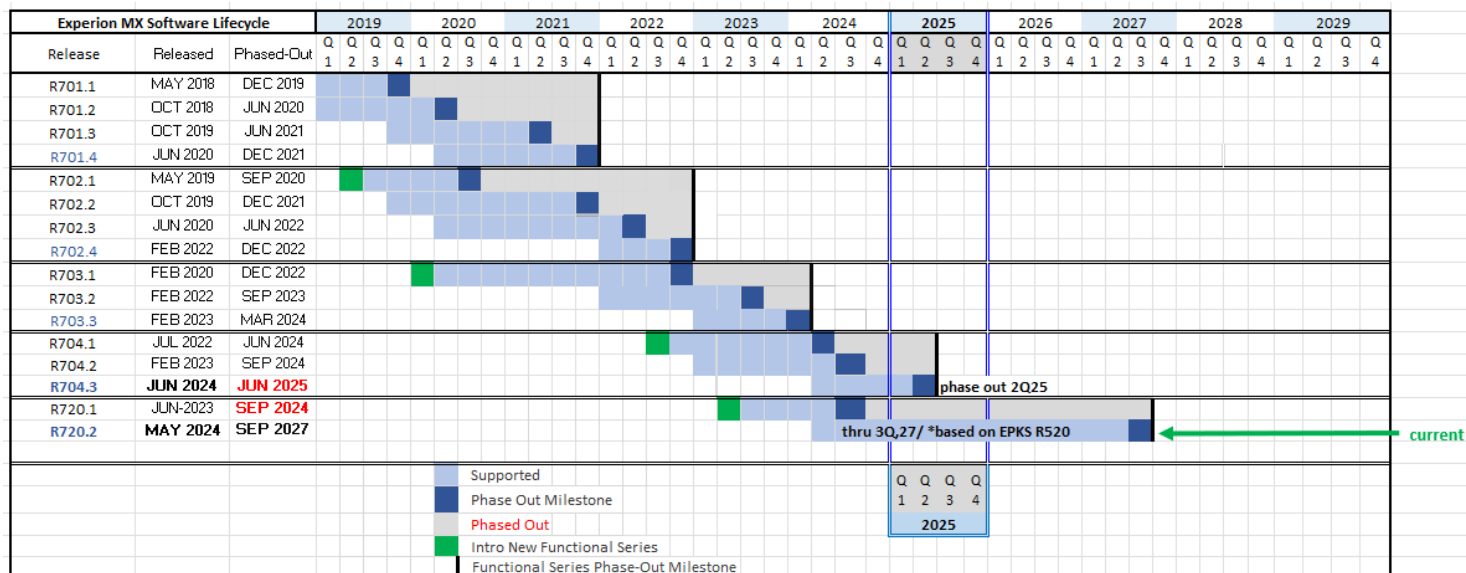

The latest release of Experion MX and QCS SE provides easy to migrate path using efficient migration tools. For more info and help on quick system upgrades contact Honeywell Field service team.

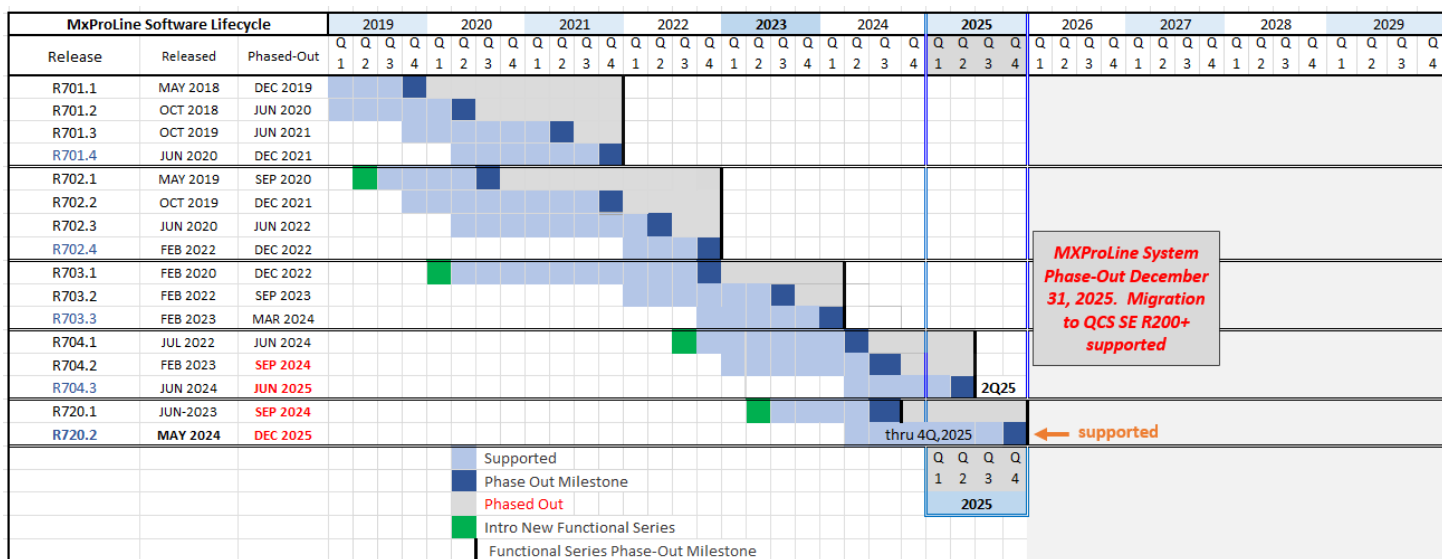

Customers can leverage Honeywell's migration support services -anytime, anywhere.

Below lifecycle charts show the updated statuses for QCS products:

### Experion MX:

**MXProLine:** MXProLine goes end of Life on Dec 31,2025. Migration support available to latest QCS SE R200 and above

## QCS SE:

## CC-PCNT02 (C300 Controller) Entering into Legacy Support by 2026 Q2

Honeywell is continuously enhancing, improving and innovating to offer our customers a state-of-the-art Technology. As part of this Experion PKS PCNT05 is launched in August 2021.

Experion PKS PCNT05 controller provides higher performance processor, additional memory, enhanced security, configuration integrity through hardware, and extended operating temperature range enabling remote location use. It has built-in control firewall and supports Control HIVE.

With this, Experion C300 Controller CC-PCNT02 is reaching legacy support by 2026 Q2.

Off process migration of CC-PCNT01/02 to CC-PCNT05 is already available via [Upgrade Kit](#) (WITH SIGN IN) with discounted price. The replaced PCNT01/02 controller must be returned to Honeywell for this discount.

The Heterogeneous (On Process) Migration of CC-PCNT01/02 to CC-PCNT05 will be available starting Experion R540 release. Additional enhancements to the current CC-PCNT05 are also planned for the same release.

The following are the key features of CC-PCNT05:

- Same footprint as C300 (CC-PCNT02) & IOTA
- Follows current C300 licensing for conventional deployments
- Supports traditional 1:1 redundant and control HIVE deployment
- Hardened controller for harsh environment. (HAZLOC 2, -40 to 70 DegC)
- Enhanced Performance and Capacity
- Enhanced Security & Embedded control firewall - ISA Secure [CSA L2](#)
- Enabled controller lock feature for enhanced security
- Enabler for Experion HIVE enhanced networking for network segregation (VLANs/PRP)
- New enhanced memory backup Module (CC-SCMB05)
- Foundation for Control HIVE Operational/Runtime Benefits

CC-PCNT02 had been restricted with RQUP control starting from Feb 2025. As per HPS support policy it will be available only for spare/replacement parts for approximately another 10 years with GTAC support.

Please refer [HPS LIFECYCLE SUPPORT](#) policy (WITH SIGN IN) for more details on the Standard Hardware Products support.

#### Definitions:

“Software Package” means any HPS software product developed for the specific functional release of system software.

“Standalone Software” means any HPS software product developed for independent operation from a system software functional release.

“System Software” means machine-readable data and executable programs used to define the functionality of the HPS control system and standard hardware products, but does not include firmware, operating system, application software or other software products.

“SaaS Offering” means any HPS software product which applications are hosted through the cloud and made available to end users over the internet.
