**Join the celebration: 50th Annual Honeywell Users Group (HUG) Symposium – June 8-11
Phoenix, Arizona, USA**

Registration for the 2026 Honeywell Users Group (HUG) Conference is OPEN!

Join us in celebrating the 50th [HUG Americas Symposium](#), June 8-11 taking place at the JW Marriott Desert Ridge, Phoenix, Arizona, USA.

This milestone event will bring together a global audience of Honeywell users and industry experts.

Early Bird Registration

Take advantage of the **Early Bird rate of USD 1,095** registering **by April 20**.

Travel and accommodation costs are not included in the HUG registration fee.

All travel and lodging arrangements are the responsibility of the attendee.

Full details of the HUG conference registration fees, and hotel accommodation can be found [here](#), and separately see the extra [OT Cybersecurity Training](#) options.

Important note: before completing your registration, please verify whether your company has a valid Honeywell SESP-Training Match Fund (TMF), or an A360 contract that includes HUG passes. To confirm eligibility and funding options on these contracts, please contact your Honeywell Account Manager.

If applicable, they will provide personalized discount codes for you or your colleagues to use during registration. If no contracted funds apply, payment by credit card is required at the time of registration.

Travel Planning

Sunday, June 7 | 2:00 p.m. — Onsite badge pickup opens

Monday, June 8 | 8:15 a.m. — Conference sessions begin

Thursday, June 11 | 5:00 p.m. — Conference concludes

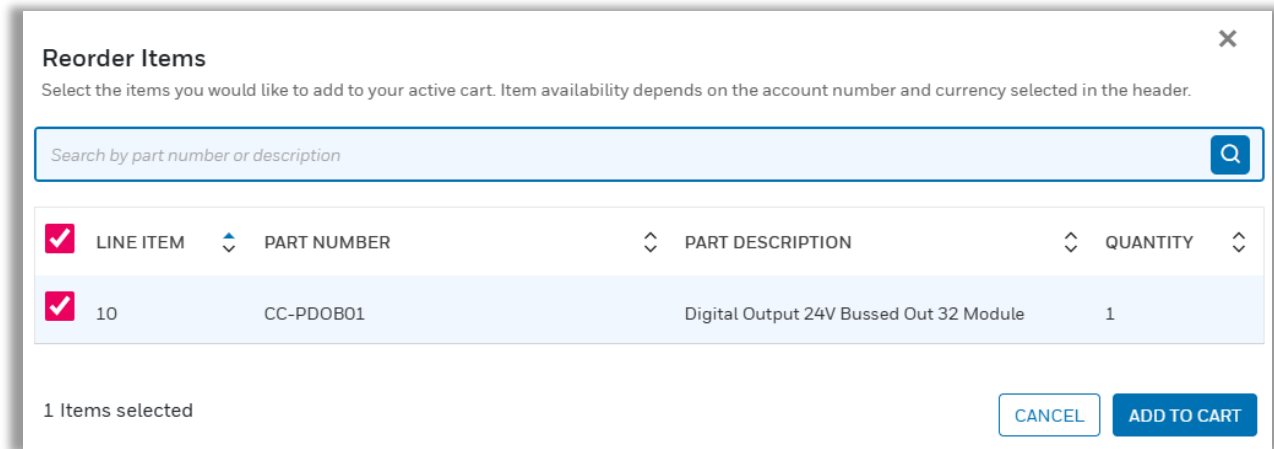

Register Today

The 2026 HUG Steering Committee and Honeywell Process Automation look forward to welcoming you to Phoenix for this special HUG celebration.

Thank you to our 2026 SPONSORS:

Reordering Made Easy: A Faster Way to Buy Again

Dear Valued Customer,

We're excited to introduce our new **Reorder Items** feature within **Order Management**, designed to make repeat ordering faster and easier.

With this new feature, you can open a previously placed order and **add items from that order directly to your cart**—no need to search for products again. It's a simple way to reorder the items you buy most often and save time on future purchases.

How to use the Reorder Items feature

1. Go to [Order Management](#) and select an order from your order history.
2. Within the Order Details, you'll see the [Reorder Items](#) option located in the **top righthand corner**.
3. Select **Reorder Items** to add products from that order directly to your cart.

How to access Order Management

Visit Order Management here:

<https://process.honeywell.com/portal/us/en/order-status>

Note: You must be signed in to view Order Management. If this is your **first time signing in**, you'll need to create an account to access your orders.

Create your account here:

<https://process.honeywell.com/us/en/my-hps/register>

Once signed in, you'll be able to view your order history and take advantage of the new **Reorder Items** capability right away.

Sincerely,

Global eCommerce Team

March 2026

Welcome to the March edition of “Global Honeywell Academy Training Solutions”.

As always, we are excited to share the latest updates, insights, and innovations from Honeywell that we believe will add value to you.

Our goal is to provide you with the most current and relevant information to help you stay ahead in your field. This month's edition is packed with exciting content tailored to keep you informed and inspired.

Below, you will find the latest updates:

1. UPCOMING TRAININGS IN AMERICAS:

Honeywell Academy - Americas is pleased to offer the following new and upcoming courses. Please request enrolment as soon as possible as limited seats are available.

➤ **EXP-1031 – Experion PKS: Fundamentals - ELCN Implementation**

This course introduces the terminology, configuration and functions of the ELCN System consisting of EUCN with EHPM/EHPMx controller.

- Schedules: Click [here](#)
- Instructor-Led Training (ILT) at Houston, TX facility

➤ **EXP-1032 – Experion PKS: Advanced - EHPM/EHPMx Implementation**

For personnel who already have a fully implemented ELCN system and responsible for building EHPM points, writing CL programs from an Experion Station-TPS.

- Schedules: Click [here](#)
- Instructor-Led Training (ILT) at Houston, TX facility

➤ **HAPC-0001-VILT - Honeywell Advanced Process Control: Fundamentals - Process Controller Implementation**

Course participants will learn the multivariable predictive control design and implementation using Process Controller software.

- Training Dates: May 4 – 8, 2026
- Virtual Instructor-Led Training (VILT)

➤ **HWC-0004-VILT - Honeywell Workforce Competency: Fundamentals - System Manager Administration**

Course participants will learn how to perform Experion Batch Manager (EBM) tasks.

- Training Dates: April 20 – 21, 2026
- Virtual Instructor-Led Training (VILT)

➤ **EXP-21 - Experion PKS: Fundamentals - Experion Batch Manager (EBM) - Instance Based Recipes Implementation**

Course participants will learn how to apply the Experion® Batch Manager (EBM) to continuous and procedural operations.

- Training Dates: May 26 – 29, 2026
- Instructor-Led Training (ILT) at Houston, TX facility

➤ **EXP-1011 - Experion PKS: Advanced - Class Based Recipes Implementation**

Course participants will learn how to perform Experion Batch Manager (EBM) tasks.

- Training Dates: June 1 – 3, 2026
- Instructor-Led Training (ILT) at Houston, TX facility

2. BOOST YOUR CYBERSECURITY SKILLS AT HONEYWELL USERS GROUP

Cybersecurity never stands still and neither should your skills. This year, HUG attendees have a special opportunity to access our world class OT cybersecurity training, offered globally and now curated specifically for the HUG community. Take advantage of exclusive HUG-only pricing with more than 75% off the regular price on the following expert-led courses:

1. OT Cybersecurity 101 – 2.5 hours

Curious about OT cybersecurity but never found the time to dive in? This condensed, essentials only course focuses on what matters most, making it easy to understand the fundamentals of OT cybersecurity.

2. OT Cybersecurity Incident Response Table Top Exercise – 8 hours

Participate in an interactive workshop designed to strengthen your OT cybersecurity incident response capabilities. This session uses real world scenarios to help improve response skills across roles.

3. Defensive Techniques in OT Cybersecurity – 8 hours

Boost your defensive skills with insights into a hacker's mindset. This hands on training includes practical exercises based on real life scenarios and proven techniques to keep intruders at bay.

These sessions are designed to deliver practical, immediately applicable skills. As an added benefit, participants maintaining cybersecurity certifications can earn CPEs by attending these courses.

Please note that these training courses are available to HUG attendees. [OT Cybersecurity Training - 2026](#)

[Honeywell Users Group](#)

Sign up for your courses as part of your HUG registration: [REGISTER NOW](#).

3. HONEYWELL ACADEMY-EMEA | EXPERION PKS UK TRAININGS 2026

We're excited to announce the 2026 Honeywell Academy Experion PKS training schedule, delivered in the UK by expert instructors and designed to strengthen hands-on capability across engineering, configuration, troubleshooting, and migration.

Whether you're building foundations or deepening specialist skills, these courses offer practical learning you can immediately apply for the job.

Course Schedule - Experion PKS Fundamentals:

EXP-03 – Graphics Design & Building Implementation

 7–10 April 2026

 21–24 September 2026

EXP-02 – Server Engineering & Configuration Implementation

 11–15 May 2026

 17–21 August 2026

EXP-1024 – TPS to Experion Migration & Troubleshooting Overview

 15–19 June 2026

 16–20 November 2026

EXP-05C3 – C300 Troubleshooting & Maintenance

 13–17 July 2026

EXP-2001C3 – C300 Controller Implementation

 12–16 October 2026

Do not miss the opportunity to attend these Instructor Led, hands on trainings, with practical scenarios aligned with real operations. Ideal for engineers, technicians and system specialists.

🔥 Seats are limited, so plan early and secure your place!

Make sure you let your Engineers and Customers know! Let's continue building strong automation capability together! 🤝

For registration or additional information please reach out to:

HPS-Training-EMEA@honeywell.com

Thank you for being a part of our community, and we look forward to your feedback and engagement.

To explore our currently scheduled global courses, [Click here](#) to visit our website.

For any additional information or any specific inquiries, do not hesitate to reach out to your account manager directly or write to the regional contacts below.

Regional Contacts:

- 🌐 **Americas-Canada-Latin America:** HPSTrainingUSCANLAR@Honeywell.com
 - Pole Leader: Nerio Gutierrez - Nerio.Gutierrez@Honeywell.com
- 🌐 **Europe-Middle East-Africa:** HPS-Training-EMEA@Honeywell.com
 - Pole Leader: Joao Mestre - Joao.Mestre@Honeywell.com
- 🌐 **Asia Pacific:** HPS-Training-India@Honeywell.com

For Cybersecurity training:

Global Manager (OT Cybersecurity Training Services)-Rajan Patil - Rajan.Patil2@Honeywell.com

We are committed to addressing any inquiries you may have and ensuring a smooth integration of our innovative solution into your business operations.

Warm regards,

Honeywell Academy

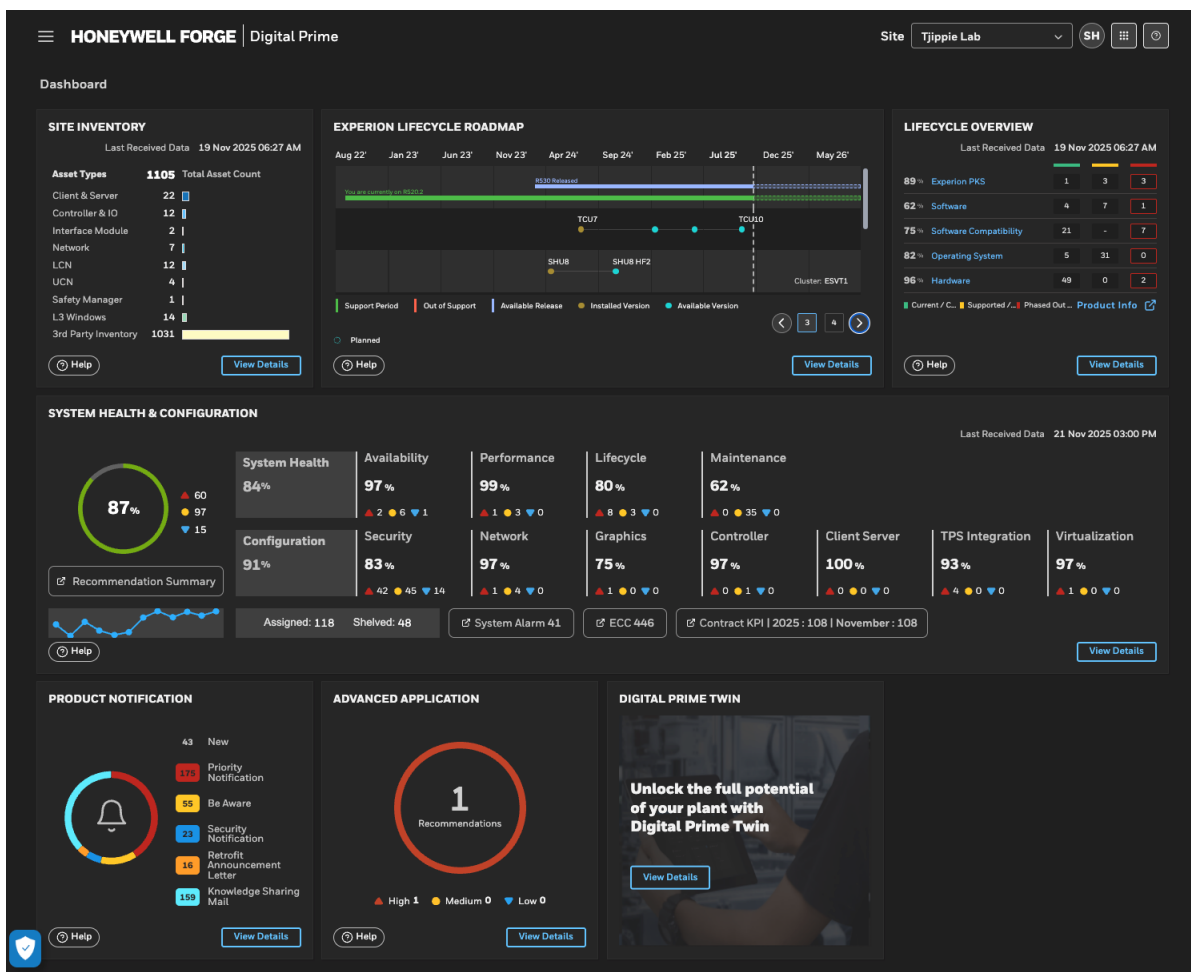

PRODUCTS HIGHLIGHTS

Enhance Your Experience: Explore Your New Honeywell Digital Prime™ Portal (Free for SESP Users)

Honeywell Digital Prime™ Portal is now ready for you, bringing you a whole new level of visibility and control over your existing Honeywell solutions. This secure and unified ecosystem brings together critical information, giving you a clearer view of your systems, services and opportunities ahead in one easy-to-access dashboard. With modular widgets and role-based views, the Portal delivers greater visibility across your Honeywell solutions and enables you to quickly spot what matters, drill into the details and act faster. Log in today at <https://apps.honeywellforge.com/> using your Honeywell credentials. The Portal is included in your current SESP contract. Watch this 5-minute video, [Introduction to Honeywell Digital Prime Portal](#), to learn more and continue reading this article for further information.

The Digital Prime Portal expands our connected and digital solutions, building on the success and capabilities of the Honeywell Digital Prime Twin. When Honeywell first introduced the Digital Prime Twin, the goal was simple: create a safer, smarter virtual environment to test and evolve control system development and engineering, enabling you to save valuable engineering time. Now, with the Digital Prime Portal, we offer an ecosystem to further help you drive your business and save even more time.

All widgets shown in the image are available in the initial release. Widgets and views shown may vary based on your current Honeywell service entitlements.

What Can You See Today?

This release of the Digital Prime Portal includes the following powerful capabilities:

- **Inventory** – A centralized view of your installed OT assets. Includes inventory transfer for asset validation during contract renewal.
- **Lifecycle** – A new Lifecycle Roadmap view to help you understand the support posture for your OT assets and plan upgrades and migrations effectively.
- **Product Info** – Compatibility and interoperability details for Experion releases and auxiliary software/hardware. Previously, this information had to be downloaded from the Honeywell website as a spreadsheet.
- **Product Notifications** – A convenient view to stay informed on updates and advisories, including Priority Notifications, Be Aware Advisories, Retrofit Announcements, Security Notifications, and other Knowledge Sharing Articles .
- **System Health & Configuration** – Calculated health and compliance scores of your systems. For customers with Enabled Services, drill-down details are available to monitor configuration and health status for faster issue triage.
- **Advanced Industrial Applications** – Customers with Honeywell’s advanced industrial applications can see high-level scores, with detailed information available for those with a supporting contract.

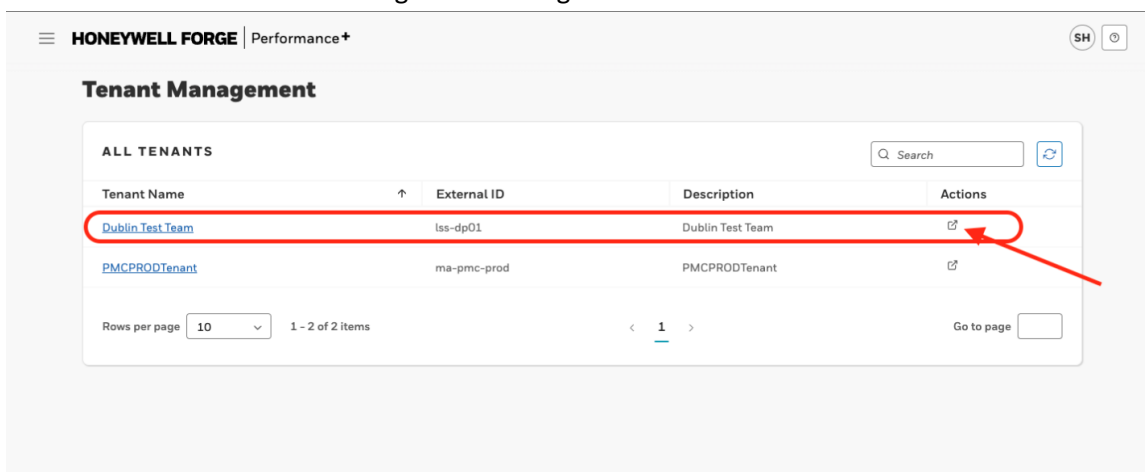

Note: the Digital Prime Portal and the Digital Prime Twin are currently available as individual solutions. In the future, the Digital Prime Twin can be accessed through the Digital Prime Portal.

How to Access the Digital Prime Portal

1. Go to <https://apps.honeywellforge.com/>
2. Log in using your Honeywell credentials.
3. You will land on the **Honeywell Forge Tenant Management** page, which lists all Tenants you have access to.

Note: A tenant is a customer-specific logical environment that securely isolates data, configurations, and services, and contains all sites associated with that customer.

4. Click on the **Actions** button to navigate to the Digital Prime Portal for the sites within that tenant.

5. You will be redirected to the Digital Prime Portal for the selected tenant.

- You can bookmark this URL as a direct link to the Digital Prime Portal for that tenant.
- If you have multiple tenants, you can navigate to each one from the Tenant Management page and bookmark them individually.

Important Note: You can still navigate directly to Digital System Insights or Enabled Services using your existing URL.

What to Expect Soon

This is just the beginning. The capabilities of the Digital Prime Portal are expected to grow in the near future to include other valuable views, such as: Contracts Information, Cybersecurity Solutions, Digital Prime Twin, Honeywell Trace™ and much more! Stay tuned for updates.

Support

If you need help with access to Honeywell Digital Prime Portal or have questions, please contact your Honeywell representative.

SUPPORT CYCLE

Honeywell Alarm Management – ACM Functional Parity and APO migration planning

As Alarm Configuration Manager (ACM /D&E / DnE / Documentation) module enters the **Extended Phased-Out Support*** period, effective through December 2027, the following provides a high-level view of the functional parity planned across the Alarm Performance Optimizer (APO) 3.1 and 3.2 releases.

Features in ACM	APO 3.1.0	APO 3.2.0	Additional comments
ACM /D&E Tag Movement within or across consoles	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
ACM /D&E Offline control system support	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
ACM /D&E AES Enable/disable from Operator Console	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
ACM /D&E Tag Synchronization	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Tag Sync, Update secondary parameters
ACM /D&E Tag Synchronization	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Reconfiguration
ACM /D&E Limit repository integration with legacy LR	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
ACM /D&E boundary mapping	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
ACM /D&E Web access from L4	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Tag summary, Details, Analytics Data transfer (initial and Delta Sync), Configuration, Cross Domain UI
ACM /D&E reports in M&R (D&E Enforcement summary / Enforcement details / D&E Alarms Priority reports)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
ACM /D&E parameter / trip point changes from L3 / PCN network	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
UA (User Alerts / Alerts and Notification / A&N)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Develop new COM server which shall act as a manager server for User Alert Explorer and serve the needed data from Site APO. Expose API's for getting list of Control systems, consoles, Assets from Site APO
ACM /D&E alarm properties Integration with Mnr	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
ACM /D&E Honeywell BMA tag configuration	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
ACM /D&E Generic DCS new configuration	<input checked="" type="checkbox"/>	<input type="checkbox"/>	GenericDCS Authoring Tool OPC UA Support Validation configuration and runtime
ACM /D&E Main enforcer and standby enforcer configuration	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
ACM / D&E database Any additional details / customization / exposure to third party application	<input type="checkbox"/>	<input type="checkbox"/>	
ACM / D&E Experion Alarm help	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Offline Rationalization (New tag addition)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Offline Rationalization	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Drawing and constraints
Features not in ACM	APO 3.1.0	APO 3.2.0	Additional comments
ACM / D&E Enforcer client from L4	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
ACM / D&E Approval from L3	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Integration Expose API for Third Party Data Applications	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
Integration with Enterprise LR	<input type="checkbox"/>	<input checked="" type="checkbox"/>	

*Limited TAC Support, commercially reasonable effort support, no new enhancements will be made to Alarm Configuration Manager.

For any questions regarding a seamless migration from ACM to APO functional parity, please contact your designated site representatives.

Honeywell Alarm Management – Reporting R230 Features

OBJECTIVE	NEW FEATURES	OUTCOME
<ul style="list-style-type: none"> A move towards modernization to facilitate quicker and easier RCA – Improved alarm management lifecycle. 	 System Health Dashboard to provide quick insights to system health and analyze overall system health	Improves uptime
	 Alarm Activity Report to provide insights into alarm activity for a specified period	Helps improve operator load
<ul style="list-style-type: none"> Integration with Alarm Performance Optimizer (APO) to provide – insights and recommendations. Guided 	 Exposing Alarm KPIs Export to Historian (including third party historian) with a capability of Priority filter option	Enables data integration for third party Historian consumption like PI
	 Repeatable widgets and editing staked custom reporting	Enhances flexibility and reduces analysis time significantly
	 Advanced and Secure rules builder to enhance accuracy	System agnostic capability
	 Schedule Archive / purge DB events capability	Reduced cost of maintenance

IKB (Integrated Keyboard) Support Status Change to Extended

The IKB (Integrated Keyboard) product family is transitioning to Extended support immediately.

Further manufacturing isn't possible due to critical components no longer being available.

When the existing inventory has run out the support status will transition to phased out and there won't be any future supply.

The OEP (Operator Entry Panel) and OTP (Operator Touch Panel) provide equivalent functionality to the IKB. These are both fully supported there are no plan to change this.

Model No/Part Number	Description	Support Status
TP-DIKBNA-100	IKB KEYBOARD W/O TRACKBALL, DESKTOP	Extended
TP-DIKBTA-100	DESKTOP INTEGRATED KBOARD WITH TR'KBALL	Extended
TP-DUIKBT-101	IKB USB KBD 110V W/TBALL	Extended
TP-DUIKBT-201	IKB USB KBD 250V W/TBALL	Extended
51196694-350	KB GUS W/TRKBAL	Extended
51196694-901	TRACKBALL	Extended
51196694-904	K/B FULL TRAVEL	Extended

For more information please contact the offering manager Andrew Stuart (Andrew.Stuart@honeywell.com).

Note: Software releases not listed in the table are in “Phased Out” lifecycle status. The HPS Product Support Guide for Control, Safety and Monitoring Systems is available for download following link below (Requires Login)
<https://process.honeywell.com/us/en/support/technical-publication?search=product%2520support%2520guide%2520for%2520control%2520safety%2520and%2520monitoring%2520systems>

Definitions:

“Software Package” means any HPS software product developed for the specific functional release of system software.

“Standalone Software” means any HPS software product developed for independent operation from a system software functional release.

“System Software” means machine-readable data and executable programs used to define the functionality of the HPS control system and standard hardware products, but does not include firmware, operating system, application software or other software products.

“SaaS Offering” means any HPS software product which applications are hosted through the cloud and made available to end users over the internet.
