

SECURE CONDITION BASED MAINTENANCE (CBM)

WHAT IS YOUR MAINTENANCE STRATEGY? REACTIVE OR PROACTIVE?

Process disruption is expensive in terms of asset downtime, lost production, labor expenses, and spare parts costs.

Typically, the industries with Reactive and Non Preventive Maintenance Strategy suffer from higher frequency of unexpected incidents and problems and unplanned costs.

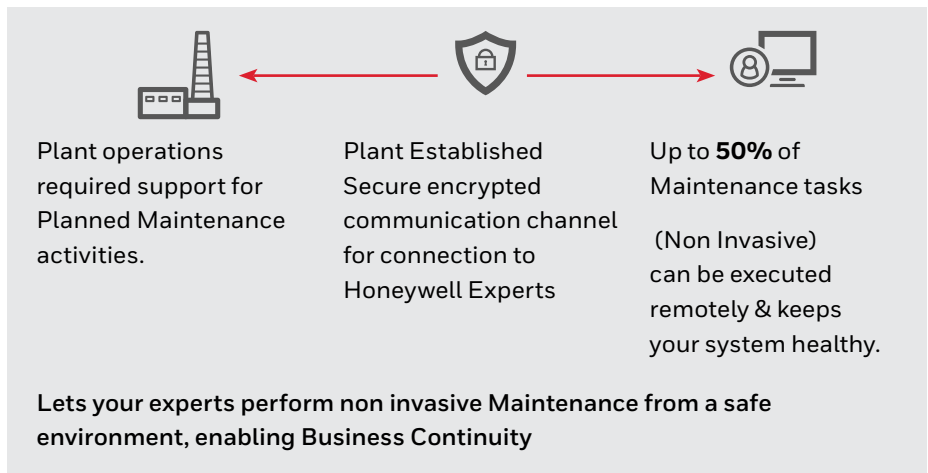

BENEFITS OF PROACTIVE MAINTENANCE	
Reduced site presence Upto	50%
Reduced corrective maintenance	
maintenance coverage	100%
Consistent maintenance strategy	
Schedule-based maintenance	
Improved resolution time	

It's time to consider new approach

CONDITION BASED MAINTENANCE

Honeywell offers Condition Based Maintenance, a structured maintenance strategy to sustain system health through proactive alerting, actionable insights and consistent quality of delivered maintenance services

Increases key resource availability and productivity, enabling on-site Field Service Staff (FSS) to focus on and execute higher value activities.

KEY FUNDAMENTAL REQUIREMENTS

- Customers having service node infrastructure installed.
- Customers who want assistance maintaining Maintenance requirements from the Honeywell PM Tool
- Customers who enable work with Offsite Expert Analysis – Executed by Honeywell Teams

2 CONNECTED CBM OFFERINGS (PRICING BASED ON INSTALLED BASED QUANTITIES)
