

BIOGAS

Grid Injection Systems

- Safe and reliable connection to the grid
- Accurate fiscal metering system
- Standardized packaged solution
- Remote monitoring minimizes downtime

Fiscal gas quality analysis

- C₁-C₄ (Methane up to Butanes)
- N₂
- CO₂
- O₂
- H₂S
- H₂
- THT

Odourisation

Fully automated,
flow controlled THT/TBM
odorisation

Fiscal flow metering

- Rotary meter
- Recirculation of off-spec gas
- Pressure reduction
- Entry point for odorisation
- Entry point for propane blending

Control system

- Flow computer
- Panel PC for displaying process parameters
- Gas quality checking
- Remote reading / operation
