

EXPERION PKS AND INTEGRATION OF NON-EXPERION NODES

COURSE OVERVIEW

Course Number: EXP-7018-MT

Course Duration: 90 Minutes

Prerequisite Course (s): None

This module introduces the Open Platform Communication (OPC) concepts and the integration of the OPC server client in Experion Process Knowledge System. The OPC configuration and its performance, will also be discussed. It is presented in six units, which will allow you to explore the different technical concepts at your own pace.
