

NETWORK TOPOLOGIES AND PROTOCOLS

COURSE OVERVIEW

Course Number: EXP-7027-MT

Course Duration: 260 Minutes

Prerequisite Course (s): None

This module provides fundamental overview of the network design and architecture concepts of topology and protocols. It is presented in nine units, which will allow you to explore the different technical concepts at your own pace.

COURSE DELIVERY OPTIONS

- Modular Training (MT)

COURSE OBJECTIVES

- Routing table
- Spanning Tree Protocol
- Network protocols
- OSI models
- Network services
- WAN topologies
- VLAN topology
- Securing networks
- Network utilities
