

## **EXPERION PKS** **PRODUCTIVITY TOOLS** **IN CONTROL BUILDER**

### **COURSE OVERVIEW**

**Course Number: EXP-7097-MT**

**Course Duration: 80 Minutes**

**Prerequisite Course (s): None**

This module describes how to use bulk configuration tool and engineering data builder tool. It is presented in six units, which will allow you to explore the different technical concepts at your own pace.

### **COURSE DELIVERY OPTIONS**

- Modular Training (MT)

### **COURSE OBJECTIVES**

- Describe Productivity Tools
- Change Parameter Values Using Bulk Edit tool
- Replace IO blocks using Bulk configuration tool
- Perform Engineering Data Builder operations
- Describe Performance Calculations
- Describe EXCEL Simulation
