

SAFETY MANAGER: FUNDAMENTALS – ON-LINE MODIFICATION IMPLEMENTATION

COURSE OVERVIEW

Course Number: SM-4554

Course Duration: 2 Days

Prerequisite Course (s): SM-4551

This course provides the ability to perform On-Line Modifications (OLM). It demonstrates how to modify an application, upgrade to a newer software release, and even how to add or remove additional hardware on-line.

All the exercises are done using running Safety Manager systems.

COURSE DELIVERY OPTIONS

- Instructor-Led Training (ILT)

COURSE OBJECTIVES

- Brief review of Safety Manager configuration and structure
- On-line modification of the application
- On-line modification of the system software
- On-line modification of hardware modules
- Do's and don'ts regarding on-line modification
