

MANAGING FUNCTIONS OF HONEYWELL TRACE

COURSE OVERVIEW

Course Number: TRC-7005-MT

Course Duration: 125 minutes

Prerequisite Course (s): None

This module introduces change detection, change analysis, and change requests in Trace. It also takes you through Engineering Anomaly management, using Spares, Queries and Notes. And finally, it instructs how to generate Reports, manage Exports in the latest release of Trace.

Module 01 - Change Detection and Change Analysis

Module 02 - Managing Change Requests

Module 03 - Engineering Anomaly Management

Module 04 - Using Spares in Honeywell Trace

Module 05 - Using Query in Honeywell Trace

Module 06 - Using Notes in Honeywell Trace

Module 07 - Generating Reports in Honeywell Trace

Module 08 - Using Export in Honeywell Trace

Module 09 - Using Global Search in Honeywell Trace

COURSE DELIVERY OPTIONS

- Modular Training (MT)

COURSE OBJECTIVES

Summarize key features of change management in Honeywell Trace:

- Change Detection
- Change Requests
- Engineering Anomaly
- Spares
- Query
- Notes
- Reports
- Exports

Explain Global Search within Honeywell Trace and the applicable Licenses.
