

# **HONEYWELL ADVANCED PROCESS CONTROL: FUNDAMENTALS – CONTROL PERFORMANCE ANALYTICS-UNIFIED – SYSTEM ADMINISTRATION**

## **COURSE OVERVIEW**

**Course Number:** HAPC-0005

**Course Duration:** 3 Days

**Prerequisite Course (s):** None

This course provides a comprehensive implementation guide for deploying CPA-U from installation/configuration through databases/historians and finally to report generation/interpretation.

After a brief introduction to CPA-U installation, various configuration using Configurator will be presented. The Analysis Designer, Service Bus, Common Asset Model (CAM), Data Access Services (DAS) plugin, embedded PHD, SQL databases will be explained. How to use and configure CPA-U web report for analyzing, filtering and benchmarking reports will then be covered.

Throughout the course laboratory exercises will be used extensively to illustrate the different features of the software tools, and to guide the user through the process of building hierarchy, databases, reports, and migration guidelines.

## **COURSE DELIVERY OPTIONS**

- Instructor-Led Training (ILT)
- Virtual Instructor-Led Training (VILT)

## **COURSE OBJECTIVES**

- Install and configure CPA-U
- Use Configurator to build Common Asset Model (CAM) based asset hierarchy and configure/analyze reports
- Build embedded PHD, SQL databases
- Achieve successful migrations
